---

## **Fill in the Blanks: Comparatives and Superlatives Practice**

Read the following article about different animals and fill in the blanks with the appropriate comparatives or superlatives.

### **Article: The Animal Kingdom**

Welcome to the fascinating world of the animal kingdom, where creatures display a remarkable array of characteristics. Among the 1 (intelligent) animals are dolphins. Known for their playful behavior

and advanced communication skills, they are considered **2** (smart) than many other marine species.

In terms of speed, the cheetah is undoubtedly **3** (fast) land animal. It can reach incredible speeds, making it **4** (fast) than most predators. On the other hand, the sloth is famous for being one of the **5** (slow) mammals. Its movements are **6** (slow) than those of almost any other creature.

In the vast world of birds, the eagle is renowned for having **7** (sharp) eyesight. It is **8** (sharp) than most other birds, enabling it to spot prey from great heights. Meanwhile, penguins are known for their exceptional swimming abilities. The emperor penguin, in particular, is considered **9** (good) swimmer among all penguin species.

When it comes to strength, the elephant is unmatched. It is **10** (strong) land animal and possesses **11** (strong) memory in the animal kingdom. In contrast, the ant is **12** (strong) than its tiny size might suggest. In fact, it can carry objects **13** (heavy) than itself.

Now, let's explore the underwater realm. The blue whale is not only the **14** (large) mammal on Earth but also the **15** (large) animal ever to have existed. In contrast, seahorses are among the **16** (small) fish. The dwarf seahorse, in particular, is considered **17** (small) seahorse species.

Nature's diversity never ceases to amaze. From the **18** (fast) to the **19** (slow), the **20** (large) to the **21** (small), the animal kingdom is a treasure trove of wonders.
